- Close follow-up rivals and create distinctness
- Informing and protecting channel about global big players.

# Sales Revenue (USD)

# ISO9001 : Quality Managament System

From the very first day of its establishment, the logic of document management system of its founders coming from their experience in government sector, turned into quality management system by completing its paper work in 2000. We always firstly consider our quality management system that we received in 2000 and renewed every year, on our Corporation activities. Simet with its all functions and operating, used Quality Management System as main principle even whereas many corporations see it as nothing but a formality.

Our quality management system and all process taking part normal operating procedures is open to improvement and always supports quality.

Please improve and lead us.
