The entry-level solution for small environments

The gateprotect GPO 150v2 firewall facilitates the complete and cost-effective protection for small businesses and offices. The WebGUI technology and the high level of security ensure comprehensive network protection against malware, spam, Trojans, phishing, and other attacks.

The new hardware has 3 individually configurable network connections and high throughput, offering comprehensive UTM security even for multiple users. What's more, the GPO 150v2 is an ideal endpoint for secure connections (via VPN) to networks protected with a gateprotect UTM firewall. Set-up and connection via VPN are easily done with just one mouse click.

Its compact size and affordable price make the GPO 150v2 the perfect solution for small businesses. The GPO 150v2 can be enhanced to a WLAN access point using the WLAN module (optional).

Specifications	GPO 150v2
Interfaces	
Ports	3x 1G RJ45 1x Mgmt
System-Performance	
Firewall throughput (Mbps)	1,000 (UDP)/800 (TCP)
VPN IPsec throughput (Mbps)	175
UTM throughput (Mbps)	350
IDS/IPS throughput (Mbps)	440
Concurrent sessions	32,500
New sessions per second	3000
Dimensions	
H x W x D (mm)	220 x 44 x 176
Gross weight (kgs)	1,2
Power	
Input voltage (V)	100-240
Consumption (W) - full load	36
Environmental	
Operating temperature (°C)	0-40
Relative humidity	5-90%
Hardware certifications	FC CE UL
