

Rack Station

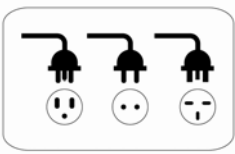

RS409, RS409+, RS409RP+

Quick Installation Guide

SAFETY INSTRUCTIONS

Please read these safety instructions carefully before use, and keep this manual in a safe place for your future reference.

		
Keep away from direct sunlight and away from chemicals. Make sure the environment does not experience abrupt changes in temperature or humidity.	Do keep Synology product upright. Do not lay it down horizontally.	Do not place the Synology product close to any liquid.
		
Do not place the Synology product on a cart, table, or desk, which is not stable to avoid the product from falling over.	The power cord must plug in to the right supply voltage. Make sure that the supplied AC voltage is correct and stable.	Before cleaning, unplug the power cord first. Wipe Synology product with damp paper towels. Do not use chemical or aerosol cleaners to clean it.

INSTALL HARD DISK

The product requires at least one 3.5" SATA hard disk for installation. Refer to the following steps for details:

Warning! If you use a hard disk with data on it to install, system will format the hard disk and erase all data in some cases. Please back up the data if you need it in the future.

1. Push the release button in the direction as indicated below.

2. Pull the clip in the direction as indicated below to remove the hard disk tray.

3. Attach the prepared SATA hard disk to the hard disk tray and use 4 screws to fix the hard disk. Refer to the picture below for the screw position

4. Replace the hard disk tray to the case.

5. Push the clip to fix the hard disk tray.

6. Repeat the steps above to assemble all hard disks you have prepared. Fix the two rack mount kits on both sides with their screws provided.

TURN ON SERVER

RS409, RS409+

1. Connect the AC adapter to the power port, and fix the cable to the cable lock. Then plug the power cord into a power socket.

2. Connect the RJ-45 cable to the server and connect the other end to your switch/hub/ router or notebook/desktop PC.

3. Press the Power button on the front panel to turn on the server.

RS409RP+

1. Connect the AC adapter to the power port, and fix the cable to the cable lock. Then plug the power cord into a power socket.

2. Connect the RJ-45 cable to the server and connect the other end to your switch/hub/ router or notebook/desktop PC.

3. Press the power switch to switch the server on.

4. Press the Power button on the front panel to turn on the server.
